GoClip™

- Quick save and recall
- Plays CINE clips forward or backward

The confusing buttons and keyboards of yesterday's ultrasound systems can get in the way of health care. It is time to switch to SonoTouch™ and experience the amazingly intuitive user interface designed to help the way you work, with the performance you need.

Simple Intuitive

SonoTouch™

L7M : 5-10Mhz linear
Applications:
Vascular,small parts,MSK

L7S:5-11 Mhz linear
Applications: Nerve,small
parts,MSK,vascular

V6: 4-7.5Mhz transvaginal
Applications: OB/GYN, Urology

C3: 2.5-5 Mhz convex
Applications: Abdominal,
OB/GYN, Urology

R7: 5-10Mhz transrectal
Applications: Urology

MC3: 2.5-5Mhz micro-convex
Applications: Abdominal,
Cardiac, OB/GYN

MC6: 4-8Mhz micro-convex
Applications: small animal ABD,
OB, GYN, cardiac

P3: 2.5-4Mhz phased array
Application: Cardiac, Abdominal

MC5V: 4.5-7Mhz micro-convex
Applications: small animal
ABD, OB, GYN, cardiac

L5V:3.5-6.5Mhz linear rectal
Applications: large animal
reproduction
